SATURDAY, SEPT. 18.

THE TURF IN ALBERTA.

THE COURTEROS on the Racce Track during the past two or three days have been to a certain extent, annising: One would say looking at it from the outside, that the jockys had been trying to cut each others throats. This is satisfactory on proving that the Alberta jockey cannot only ride but flight.

Taking the race between Misse Doubtfull and Minnie Dunn Saturbudy's a sample, we may inform the public that Miss Doubtful ran into Minnie Dunn and cut her legs; that like the bush of the had been trying to the high brother of the rider of Minnie Dunn tell into a camba thich had in high brother of the rider of Minnie Dunn tell into a camba thich had its termination at the barracks.

Seeing that the best are off, no garent harm has been done except in the triffig matter of the rider of Minnie Dunn tell into a camba thich had the high brother of the rider of Minnie Dunn tell into a camba thich had the high brother of the rider of Minnie Dunn tell into a camba thich had the high brother of the rider of Minnie Dunn tell into a camba that the form had been for a sit has the source of the trying had been for as it has its own track, it will have the satisfaction of knowing that if they do lose, it will be a the first of the two the province of the satisfactory conclusion that Alberta is not too soon. As soon as it has its own track, it will have the satisfaction of knowing that if they do lose, it will be a the first of the province of the trying that they do lose, it will be a the first of t

The result of the Haldimand and Chambly elections is somewhat generally regarded as postponing the general elections to next vear. Whether this is the case or not, nothing seems to indicate that the elections will come on this year, and it becomes an interesting question to the Territories, in view of the fact that the Rich question is entering so largely into the issues of castern politics at present, as to whether the government will not give them the apportunity of pronouncing on the Rich question by bringing on the Heid question by bringing on the territorial elections as soon as possible.

It is usual to suppose that the government would hardly think it would be about the precisional districts to desir representatives for the laminer of the present perfinent, but it it was worth while in Haldimand and Chambly, it is worth while in the statem provinces should have some opportunity of terring what our views are on this Rich question which seems to disturb them so genetic. The result of the Haldimand and

them so greatly. We doubt it the triple of this country would want such a question made the issue here. Any party which adopts the Amyof Edgac platform in the Territories would be buried out of sight in an election good sets. The policy of the government in this particular would cover the many support all over the work of the policy of the property of the property

storial constituencies.

This but feature however is iese important than that the Territories should have the channe of declaring their emphatic protest against the excendion of kiel being mains a platicum on which to endowed to upon the constituency of their territories. The protest would see betwee he immunistrated one and it is to be carriedly hoped that are will be given the opportunity of giving it before the next session of parliament.
